

MEET THE NEIGHBOURS OF THE NEIGHBOURS

during COVID-19 time

#9May2020

A European Union initiative of cultural breaking-out
for youth from Europe, Africa and Mediterranean

MEET EUROPE

MEET AFRICA & MEDITERRANEAN

As the current Covid-19 crisis is keeping the majority of the world's student population out of school and confined to their own homes, this EU initiative aims to offer them free access to a "platform" of opportunities to overcome the "cultural confinement" and meet the different cultures and civilisations of the "neighbours of their neighbours", through the creative works of film directors from different countries of Africa, the Mediterranean and Europe.

This streaming platform will open up a digital window of mutual understanding and inter-cultural dialogue, giving free access to selected quality films from Africa and the Mediterranean to the European students and, at the same time, free access to carefully selected European films to African and Mediterranean students, from both schools and universities, directly in their homes.

The collaboration with the "Cineteca di Bologna" and "Festival Scope" guarantees both a selection of films and access to high quality streaming. Films will be presented by important personalities from the cinema world.

The selected films are available on a first-come first-served basis for up to 1000 users for each film streamed, with a range of new films every week.

Freely available on your screens from **9th May to 4th June**
